

The Heart and Business Behind
Owning a Memory Bear and
Sentimental Sewing Business
STEPHANIEGRAMS.COM

BIOGRAPHY

It all began when 7-year-old Stephanie continued to get under-foot while her mother and grandmother were sewing; that's when they decided it was time for Stephanie to learn to hand sew.

Stephanie never imagined how important sewing would become until she suffered a miscarriage in 1993 and the sudden death of the youngest daughter, Hannah, in 2001; at the age of 14-months.

Grams company, Sewing with STEAM, LLC, became a reality in 2019 after she was approached by a stranger on social media requesting if she would create 5 memory bears using her grandfather's work overalls.

Grams now combines her 35+ years of sewing experience and entrepreneurship skills to help others start and build their own memory bear and sentimental sewing business through online classes, a self-published book, and coaching.
